-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application has been examined. The terminal disclaimer has been entered.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pooser et al (5812134) and May et al (5544354).

5. Regarding claim 1, Pooser et al show the method for organizing and processing a plurality of thoughts which are information data units (abstract, column 1 lines 1-15) including: defining a thought network that includes a plurality of thoughts (column 3 lines 40-62), among which there is a first thought having a direct network relationship with an initial current thought (column 4 lines 5-40), and a second thought having a direct network relationship with the initial current thought wherein the first and second thoughts are not related directly to each other (column 5 lines 25-40 for example), displaying a first graphical representation of the thought network from the perspective of the initial thought

(Figures 4, 5A-D). Pooser et al do not specifically show determining which thoughts are related to a specific 'filter' criteria, but do show selecting a search criteria and seeing the relational path (column 10 lines 10-32, column 12 lines 1-20). This is for ease of navigating through a database. Furthermore, May et al show selecting a filter criteria and determining which 'thoughts' or information units are related to the filter criteria (Figures 1G-H for example, 8-9, column 5 lines 40-55, column 10 lines 22-45, column 25 lines 1-15). This is done for ease of navigating through the database. It would have been obvious to a person with ordinary skill in the art to include this feature in Pooser et al, because it would provide a convenient easy way to navigate through a database.

6. Claims 2-56 are allowable over the prior art of record. These bring out added features focusing on the second filtered representation being presented in accordance with results of the criteria, which combined with the other features together are not set forth in the prior art of record.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven P Sax whose telephone number is (571) 272-4072. The examiner can normally be reached on Monday thru Friday, 8:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kristine Kincaid can be reached on (571) 272-4063. The
